

SHITALA RAGHURAJ GURUKULAM TRUST

EMPOWERING FUTURES THROUGH FREE, ACCESSIBLE EDUCATION FOR EVERY LEARNER.

ABOUT US

Shitala Raghuraj Gurukulam Trust is an education-focused institution based in Tahirpur sarupahan Azamgarh, Uttar Pradesh is committed to delivering structured and completely free education. The organization provides academic instruction from Nursery to Class 8 along with Higher Secondary education for Classes 11 and 12, ensuring continuity in learning without tuition fees. It is led by Founder Babita Singh and Co-Founder Raghuraj, who oversee academic and operational planning. The trust is currently working toward expanding its infrastructure to enroll more students and widen its academic reach. It also plans to introduce bachelor's degree programs to extend learning pathways beyond school education. With a funding requirement of ₹ 50 lakh, the institution aims to strengthen its facilities and broaden access to education for more learners.

OUR MISSION & VISION

Mission: To provide accessible and free education opportunities to students through structured schooling from early years to higher secondary level.

Vision: To expand academic offerings and institutional capacity so more students can benefit from quality education, including future undergraduate programs.

Problem Statement & Need Assessment

Limited Availability of Free Structured Schools

There is a shortage of institutions that provide full academic schooling without tuition fees across multiple grade levels.

Rising Demand vs Capacity

The number of students seeking admission is higher than what current infrastructure can accommodate, creating an access gap.

Lack of Continuous Education Pathways

Students completing school often need further academic options, which requires expansion into degree-level programs.

Infrastructure Resource Gap

Educational expansion requires financial investment for facilities, learning resources, and institutional development.

Localized Institutional Reach

Operating from a single location limits the number of students who can currently benefit from the services.

OUR SOLUTIONS

1

FREE COMPREHENSIVE SCHOOLING

Provides structured academic education from early years through higher secondary levels without charging tuition.

2

CAPACITY EXPANSION INITIATIVE

Plans to enlarge infrastructure and facilities so more students can enroll and continue their education.

3

HIGHER EDUCATION INTEGRATION PLAN

Preparing to introduce bachelor's degree programs to extend academic continuity.

4

ORGANIZED ACADEMIC SYSTEM

Maintains grade-wise curriculum delivery and supervised instruction for consistent learning outcomes.

COMPLETELY TUITION-FREE LEARNING

Education is provided without charging fees, making access easier for students.

EXPANSION-DRIVEN VISION

Growth plans are already defined to increase reach and academic offerings.

MULTI-LEVEL ACADEMIC COVERAGE

Institution supports learners from early schooling to higher secondary stages.

FOCUSED LEADERSHIP

Guided directly by its founders for mission-aligned decision making.

UNIQUE STRENGTHS

SCALE OF THE PROBLEM

- Many students require access to structured schooling that does not involve tuition costs, especially those seeking continuous education across multiple grade levels.
- Existing institutional capacity is limited compared to the growing number of learners interested in enrolling for free academic programs.
- Students need institutions that support their academic journey beyond school education, including pathways to higher studies.
- Educational organizations aiming to expand services often depend on external funding to develop infrastructure and increase reach.

OUR PROJECTS

Free School Education Program

Provides structured academic education from Nursery to Class 8 and Higher Secondary levels while ensuring students study without tuition fees.

Tuition-Free Access Initiative

Ensures structured academic education from Nursery to Class 8 and Higher Secondary levels while ensuring students study without tuition fees.

Student Intake Expansion Project

Provides structured academic education from Nursery to Class 8 and Higher Secondary levels while ensuring students study without tuition fees.

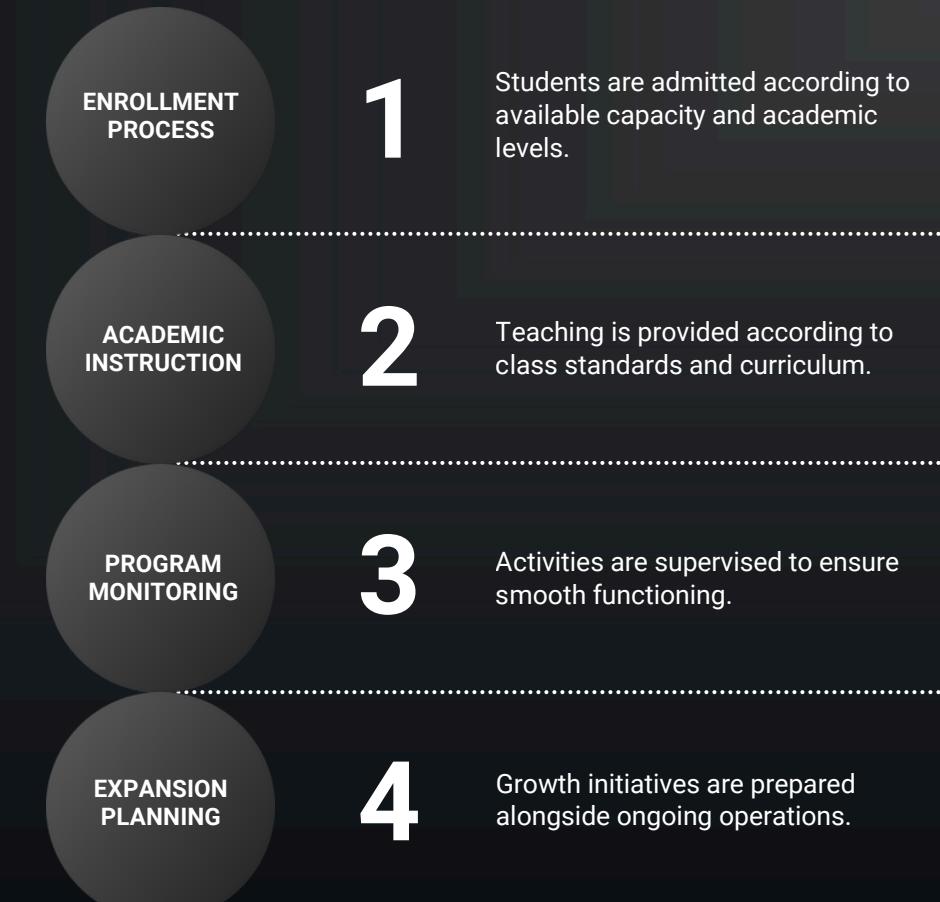

Bachelor's Degree Development Plan

Provides structured academic education from Nursery to Class 8 and Higher Secondary levels while ensuring students study without tuition fees.

OUR WORKING FLOW

The organization follows a structured academic delivery system that begins with enrollment, continues through curriculum-based instruction, and progresses toward higher-level education opportunities.

Operations are overseen directly by leadership to maintain mission alignment. Expansion planning is integrated into institutional strategy.

Beneficiary Outreach Strategy

The institution's outreach approach focuses on informing families and students about the availability of free structured education from early classes to higher secondary levels. Communication is carried out directly through institutional channels so interested beneficiaries can easily access information. The organization prioritizes awareness within surrounding areas to ensure eligible learners know about admission opportunities. Expansion plans are aligned with outreach so that increased infrastructure directly translates into increased student enrollment. The strategy emphasizes accessibility, clarity of information, and gradual growth. As new academic programs are introduced, outreach efforts will also expand to include students seeking higher education opportunities.

Community Awareness Efforts

Information is shared within nearby areas so families clearly understand available academic programs, eligibility, and admission opportunities.

Direct Contact Access

Students and guardians can directly communicate with the institution for admission guidance, ensuring clarity, transparency, and timely responses.

Growth-Linked Enrollment Outreach

Outreach activities will expand alongside infrastructure development so that increased capacity directly benefits more students seeking admission.

COLLABORATION LANDSCAPE

Organization Name	Area of Work	Strengths	Weaknesses	Our Edge
Pratham Education Foundation	Foundational learning programs	Large-scale reach	Not a single-institution schooling model	Dedicated full schooling system
Teach For India	Teaching fellowships	Strong volunteer network	Does not run its own full school	Direct institutional education delivery
Akshaya Patra Foundation	School meal support	Nationwide operations	Focus mainly on nutrition	Provides full academic education

IMPACT & ACHIEVEMENTS SO FAR

OPERATIONAL SCHOOLING

Currently delivering education from Nursery to Class 8 and Higher Secondary levels.

FREE TUITION DELIVERY

Students receive education without tuition charges.

DEFINED EXPANSION PLAN

Institutional growth strategy is already established.

LEADERSHIP STRUCTURE

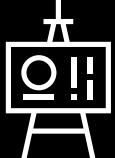

Managed by identified founders.

COMMUNITY PRESENCE

Operating educational services from its Azamgarh location.

SUSTAINABILITY & SCALE-UP PLAN – NEXT 2 YEARS

The organization plans to scale gradually by expanding student intake and introducing higher education programs. Funding support will be used to strengthen infrastructure and program capacity. Growth will be aligned with its mission of accessible education.

2027
